

Metal Free Cartridge Seals

SSBC-MF

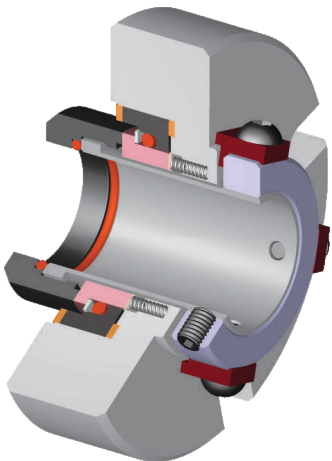

FEATURES

- Metal free contact parts
- Stationary spring design
- Monolithic seal faces
- Non clogging, spring protected
- Tolerates pressure reversal
- Replaces conventional double seals on exotic alloy pumps / non metallic pumps
- Fits on ANSI, DIN & ISO standard bore pumps
- Economic and reliable substitute for special alloy seals
- Big bore version available
- Easy to install

APPLICATIONS

- Corrosive slurries
- Corrosive salt solutions
- Exotic alloy & non metallic pumps
- Desalination plants
- Chloro alkali plants
- Mee plants
- Hot caustic solutions
- NaCl rich & lean brine

SCSC-MF

FEATURES

- Metal free contact parts
- Stationary spring design
- Monolithic seal faces
- Non clogging, spring protected
- Tolerates pressure reversal
- Heavy duty construction
- Replaces conventional double seals on exotic alloy pumps / non metallic pumps
- Guided quench & drain
- Fits on big bore & api pumps
- Easy to install
